Evidence used

Your uploaded CAP institute list is the source for the included Nagpur institutions (the Nagpur entries appear mainly on pages 5–6). Current official web information was also checked where available. For example, YCCE reports 92% placement in 2024–25, ■10.2 LPA average and ■48 LPA highest salary, and 101 CSE placements in 2024–25. Government College of Engineering, Nagpur reports 91.90% placement, ■5 LPA average and ■19 LPA maximum in its 2025 placement material. GHRCE reports 795 placed out of 1,073 graduates for its 2025 batch. These figures are college-reported and are not directly comparable unless the methodology is identical.

Important for your CAP choice

Do not select a college using rank alone. For you, the correct order is: **CSE availability** → **realistic admission chance** → **placement quality** → **fees/ROI** → **college environment** → **location**. If a higher-ranked college does not give you CSE, a lower-ranked college with CSE can be the better decision. The source list itself does not contain tiers or rankings; those are my assessments.
